

Release Notes 1.4.1

8/12/02

The following items have been moved (migrated) to Production for use by Agencies beginning on August 12, 2002.

- Common Accounting Number (CAN) is now required on all actions.
- Ethnicity Code is now required when hiring employees.
- The SF-50 was modified so that the appropriate job code description prints when a job code number is shared by two or more Agencies.
- The NTE Date on the SF-50 was moved to the end of box 5B. A heading was added that reads “NTE Date”, and the date prints underneath.
- Multiple-row inserts are no longer permitted for Filling Position Data.
- The default for the Filling Position Data has been removed. Users must now select a valid value from the prompt table.
- The following changes were made to the Marital Tax Status setup table:
 - For Arkansas, S-Single and H-Head of Household were reactivated.
 - For Maine, N-married, 2 incomes was added.
 - For Iowa, N is now the only valid value.
 - For New Mexico, H-Head of Household was added.
